

Extension of lease of Luddenden Foot Civic Centre

The 30 year lease awarded to Luddenden Foot Community Association of Luddenden Foot Civic Centre has been extended to 125 years. At the cabinet meeting on Monday, 12th February 2018, councillors voted unanimously to extend the lease.

Mrs Heather Hartwell, trustee and secretary said, “The original lease enabled us to increase the number of activities and users of the building. We are now at a stage where we want to carry out major improvements to the building. Outline planning consent has already been given for a café, through floor lift, new changing facilities for sports activities and toilets for people with physical disabilities. The extension of the lease will enable us to approach major funders for funding to realise these plans.

We are currently awaiting planning approval to replace wooden windows with upvc ones and hope to have an ambulant toilet installed later this year. We have recently installed a defibrillator outside the building.

Funding is also being sourced to carry out major improvements to the roof.

This is an exciting time for the Association and the building, as we work to make the building suitable for the 21st century and a hub for the community at Luddenden Foot”.
